MUHAMMAD USMAN

Computer Systems Engineering Student | Sukkur IBA University

+92 316 3238191 usking2321829@gmail.com LinkedIn GitHub Rahim Yar Khan, 64200

SUMMARY

A dedicated and passionate Computer Systems Engineering student with a strong inclination toward technology-driven innovation and creative problem-solving. Enthusiastically exploring emerging fields like IoT, Embedded Systems, and front-end development, combining technical expertise with an eye for user-centric design. Known for a strong work ethic, adaptability, and a collaborative spirit, with a proven track record of contributing to impactful projects. Driven by the goal of creating solutions that blend functionality and aesthetics, delivering meaningful value through technology.

EDUCATION

Intermediate in Pre-Engineeing

Board of Intermediate and Secondary Education Sukkur

04/2020 - 05/2022 Shikarpur Road, Sukkur

Grade **A1** / A1

BE in Computer Systems Engineering

Sukkur IBA University

09/2022 - Present Airport Road, Sukkur

CGPA **3.36** / 4.0

PROJECTS

Anti Sleep Glasses

- Developed Anti Sleep Glasses using Arduino Nano to detect drowsiness.
- Alerts users with a buzzer to prevent fatigue-related accidents.
- Ensures safety with real-time eye monitoring.

OPTIMA OS - A mini OS

- Developed *OPTIMA OS* in C with process and memory management.
- Implemented FCFS scheduling and interprocess communication.
- Designed a CLI for system tasks and application access.

Portfolio Website

- Created a personal portfolio website using HTML, CSS, and JavaScript.
- Designed a responsive layout for optimal viewing on all devices.
- Showcased projects and skills with interactive and engaging features.

Matrix Calculator

- Developed a Matrix Calculator using C++ to compute determinant, inverse, and adjoint.
- Ensured accurate and efficient matrix operations for user convenience.
- Simplified complex calculations with a user-friendly interface.

Speech-to-Text Converter Using Python

- Developed a Speech-to-Text Conversion system using Python.
- Utilized libraries like SpeechRecognition for accurate audio-to-text conversion.
- Enabled real-time transcription for enhanced accessibility and usability.

PROGRAMMING LANGUAGES

C/C++
Advanced

Java
Proficient

Python
Intermediate

JavaScript
Beginner

Matlab
Intermediate

Assembly Language
